**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 29 July 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Part III DETAILED ACTION**

1. This application has been examined. Claims 1-20 are pending in this application.

Applicant's arguments with respect to the rejection under 103(a) have been found to be persuasive.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-20 are still rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. All of these claims claim that the second network connects control function units for real time communication. However, from the figure the control function units LF1-LF4 does not appear to have a direct connection to each other, so it seems like it would be a serial connection, where signals may have to pass through one control function unit to reach another. For example, LF1 has a direct connection to LF2 and LF3 and does not have a direct connection to LF4, and it must communicate through line Q1 to LF3, then line Q2 to LF4. Thus, it is unclear how there can be real time cross communication if a signal cannot reach LF4 without going through another control unit (LF3) first. Appropriate correction or explanation is required.

### **Conclusion**

3. With respect to Applicant's argument that one of ordinary skilled in the art of networking knows how to provide a real time network connecting all unit LF1-LF4 when interpreting the block diagram of fig. 1. He would readily understand that functional units LF1 and LF3 internally couple the links Q1/Q2 and Q1/Q3, respectively to provide for direct connection along the network. Applicant indicated that he has used the term "network" in the claims which inherently means that all units coupled to this network are connected. Examiner respectfully disagrees with Applicant's conclusion. Examiner has reviewed the specification entirely and it has not found any part of the specification to support Applicant's conclusions. The drawing does not suggest explicitly or implicitly that there is a second network control function units for real time communication.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriel I. Garcia whose telephone number is (571) 272-7434. The Examiner can normally be reached Monday-Thursday from 7:30 AM-6:00 PM. The fax phone number for this group is (571) 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward L. Coles can be reached on (571) 272-7402. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
